CSHA REGISTRATION PROCEDURES

If the animal is NOT registered with the Shire Horse Society, UK or the American Shire Horse Association:

- MARES:**
- the animal's sire and dam must be DNA typed and fully registered in the CSHA, SHS or ASHA Stud Book.
 - the animal must be DNA typed and parent verified to the sire and dam and a copy of the DNA certificate enclosed.
 - a completed Stallion Service Report must be on file from the owner of the animal's sire.
 - the Application for Registration must be completed in full by the breeder (owner of the dam at time of foaling).
 - the Certificate of Identification MUST be completed and signed *by a veterinarian*
 - enclose fees as per the current Fee Schedule.

NOTIFIED COLTS: - as above but signature of veterinarian and DNA typing are not necessary at this time. All other steps must be followed.

STALLIONS: - all steps as above for mares.
- enclose completed Veterinary Examination of Stallion forms.

GELDINGS: - as above for mares, but DNA typing and vet signature are not required.

If the animal is fully registered (no grading-up) with the Shire Horse Society, UK:

- complete in full the Application for Registration
- enclose TWO copies of the SHS Certificate of Identification.
- enclose copy of bloodtyping/DNA certificate with parent verification.
- enclose current fees.

If the animal is fully registered (no grading-up) in the ASHA:

- complete BOTH the Application for Registration, and the Certificate of Identification.
- the Certificate of Identification must be completed and signed by a veterinarian. The breeder's signature is NOT required.
- enclose copy of the ASHA Registration Certificate
- enclose copy of the bloodtyping/DNA certificate.
- if animal is a stallion, enclose completed Veterinary Examination of Stallion forms.
- enclose current fees.
